

PullThrough Pro USB-C Video

The easiest way to allow guests to mirror their devices to your in-room room TVs.

PullThrough Pro USB-C Video

- Mirror UHD video¹ from your guests devices on your guest room TVs.
- Sleek stylish design looks great in any hotel guest room.
- Presents the cable to your guests to prevent them from plugging their own cables into the rear sockets on the guest room TV.
- DeskCard presents user instructions or other marketing collateral.
- Brushed Aluminum/Black or Black.
- Branding on cap also available².
- Simple, secure installation.
- Order TA-7300 and CAB-7300CTH2D0.

With mobile phones now standardizing on USB Type-C[®] connectors, it has never been easier for your guests to mirror video to the guest room TV.

The PullThrough Pro USB-C Video comprises our market leading PullThrough Pro coupled with a 2 metre USB Type-C[®] to HDMI cable.

Your guests simply plug the cable in to their USB Type-C[®] equipped mobile phone to display beautiful UHD video¹ on the TV.

¹ Requires a UHD TV. Video and audio only, not charging.
² The user instructions insert is not included, please order separately.
³ Subject to MOQ.

DeskCard

PullThrough Pro USB-C Video is supplied with a DeskCard to accommodate user instructions or other marketing collateral as required².

Colour and Branding

Choose either brushed aluminum with a black cap or all black. The cap can also be customized to show your hotel branding³.

Simple Installation

Just place the cable in the channel on the base of the PullThrough Pro and lock the cap in place. Then plug the HDMI end of the cable in to a spare HDMI port on your guest room TV.

If required the supplied double sided sticky pad can be used to secure the PullThrough Pro to the furniture.
